OUR PRODUCT

Horse Solariums

We produce and provide a wide range to fit your requirement and your budget.

We Care

Our team always wants to support you get the best way and will endeavor to find the optimal resolution for your particular circumstances.

Consulting

We are always available via phone or email, and we are delighted to provide you with a quotation for any requirements you may have.

ABOUT US

Curalux goes beyond traditional pet care by tapping into innovation for the animal husbandry sector. We understand the challenges that breeders and owners face when it comes to managing and maintaining animal welfare. That's why we developed innovative solutions like our horse solarium product. This revolutionary equipment offers a safe and efficient way to dry your equestrian companions after exercise or bathing, ensuring their comfort and helping to prevent any potential health issues related to moisture retention.

BENEFITS

1. Horse solariums help relax horse muscles after exercise or in cold weather, reducing tension and stiffness.
2. The heat from the solarium promotes better circulation, delivering oxygen and nutrients to muscles and tissues.
3. Solariums aid in the faster recovery of horses with muscle soreness, strains, or injuries by increasing blood flow and reducing inflammation.
4. The solarium's heat stimulates oil glands and contributes to a healthy and shiny coat, especially during winter.
5. The comfortable and warm environment of horse solariums reduces stress and anxiety, benefiting nervous or easily agitated horses.
